

Vacancy:

Internship/Graduation paper: Marketing and Communication

The company

Mechanical Field Support BV (MFS) is an independent company providing solutions for customers all over the world on GE gas turbines. Finding solutions in a continuous changing working environment serving today's and the future needs of our customers.

With our head office and workshop located in Heteren, The Netherlands, and our regional offices in Mexico and China, MFS is supplying spare parts and gas turbine services worldwide.

The strength of MFS is to supply one solution for the customer where we can take care of the entire gas turbine package and the supply of all needed parts. Therefore MFS is 'taking care of power'.

Working for MFS means a job in an internationally oriented, dynamic and informal working environment with a good salary and good secondary conditions, in line with your experience and qualifications and the possibility to grow.

Please visit our website: www.mfsupport.com for more information about our company.

Job description

MFS has been growing its international business in several countries and is now moving into a new facility/location. While MFS is growing its business we are looking for an eager student willing to be part of the team to prepare the company for the future and take the marketing and communication to the next level.

MFS gives you a great opportunity to work in an international environment, improving the marketing and communications in several areas within the company, such as: social media, website, brochures and presentations. Also communications between the different offices and towards MFS sales agents can be (part of) your task. You will have great freedom on the different subjects and you will cooperate with several colleagues.

Your tasks and/or possibilities

- Working at our head office in Heteren, The Netherlands;
- Investigate the possibilities for MFS to improve;
- Prepare a marketing and communication plan;
- Develop/improve social media, website, brochures, presentations and/or other documentation;
- Be part of the team developing ideas and strategies;

Mailing Address:

P.O. Box 121
6666 ZJ Heteren
The Netherlands
+31 (0)26 479 9999

Visiting Address:

Weerbroek 26
6666 MN Heteren
The Netherlands

Your profile

- You are studying 1 of the studies below (or similar):
 - Marketing and communications
 - Internet and social media
 - Communication and multimedia Design
- You have a bachelor education program;
- You are eager to learn all about MFS's business
- Know how to express yourself verbally and in written;
- Good English, verbally and in written; other languages like for instance German will be a plus;

What do we offer

The MFS team will invest in you and you will be given the opportunity to expend your expertise and learn about the international business. Next to this there will be an opportunity for a long term job with the company in case of mutual interest!

Next to this we offer:

- Compensation of costs and more;
- Flexible working time;
- Multiple possibilities to choose your internship or graduation program;
- Freedom to study and go to school during the entire program;

Are you ready to join our team and invest your expertise into our company?
